

## DECLARES SCHOOLS SHOULD WORK AGAINST TUBERCULOSIS

Methods of Prevention Not Sufficiently Taught Says National Assn.

### INSTRUCT COMPARATIVE FEW

Definite instruction concerning the nature and methods of prevention of tuberculosis is being given to less than 6 per cent. of the public school children of the United States, according to a bulletin issued today by the National Association for the Study and Prevention of Tuberculosis.

Recent investigation has shown that in only nine cities, Washington, D. C., Dallas, Tex., Richmond, Va., Poughkeepsie, N. Y., Detroit, Mich., Malden, Mass., Salem, Mass., Saginaw, Mich., and Knoxville, Tenn., are special textbooks being used or lectures being given about tuberculosis. In three states and one territory, Michigan, Massachusetts, North Carolina and Porto Rico, laws have been passed requiring that instruction about the nature and methods of prevention of tuberculosis be given in all public schools. In Tennessee, the State Department of Education has requested that such instruction be given, and has issued circulars for this purpose. In New Jersey and West Virginia wall-cards giving instruction are hung in every school-room and the attention of all children is called to them. The actual number of children, however, who will this year be taught by their teachers that tuberculosis is a communicable, infectious disease, and that it can be prevented, will not exceed one million. If the state laws requiring such instruction were strictly enforced, at least 2,000,000 children would be reached.

While tuberculosis does not cause as many deaths among school children as it does among workmen or among infants under five years of age, the National Association gives some figures to show how serious the disease is among this class. Based on the census of 1900, it is estimated that nearly 100,000 children now in school will die of tuberculosis before they are eighteen years of age, or that about 6,400 die annually from this disease. Estimating that on an average each child who dies of tuberculosis has had six years of schooling the aggregate loss to the country in wasted education each year amounts to \$1,152,000. According to investigations made in New York, Boston and Stockholm, the percentage of children who are afflicted with tuberculosis is much larger than the death rate would indicate.

The National Association for the Study and Prevention of Tuberculosis declares that there are two ways of checking the ravages of tuberculosis among school children. The first way is to instruct every school child about the dangers of the disease, and to show them how they themselves may prevent tuberculosis in their homes. The second method is to establish open-air schools for all children who have tuberculosis or who are suspected cases, segregating them from the healthy children.

### FINE MOVING PICTURES.

Howe's Travel Festival at Calumet Theater Much Enjoyed.

Any attraction that inspires its audience with new thoughts, that broadens our knowledge of the world in general and stimulates discussion is well worthy of liberal praise. Such an attraction is Lyman H. Howe's Travel Festival, which was presented at the Calumet theater last evening. While Mr. Howe can always be relied upon to thoroughly amuse, at the same time his exhibition imparts much information which could not be derived from any other source. The new program interests more different kinds of people than any other

LYMAN H. HOWE  
whose wonderful moving pictures will again be shown at the Calumet theater tonight.

attraction before the public today because of the great variety of its features. These include scenes of the most vital human interest, ranging from winter gaiety in St. Moritz, Switzerland, to tropical splendor in Delhi, India; from a spectacular volcanic eruption in Java to the perils of deep sea fishing in the North Sea; from dangerous logging in the Italian Alps, to life in the U. S. army; from intimate studies of bird life, to the impact of a projectile on armor plate. The pictures will again be shown at the theater this evening. The theater was filled to capacity last night and the entertainment much enjoyed.

### COMMUNION NEXT SUNDAY.

The sacrament of the Lord's supper will be observed at the Calumet Presbyterian church next Sunday morning. A preparatory service will be conducted on Friday evening, so that the members may be in the proper frame of mind for the service, after which the board will act upon several applications for membership.

## CALUMET HIGHS ROLL UP BIG SCORE AGAINST LAKE TEAM

Basket Ball Five From the Stamp Mill Town Snowed Under, 87 to 6.

### LOCALS ARE IN FIRST PLACE

The high school basketball team won an easy victory over the Lake Linden "quint" in the Y. M. C. A. gymnasium. Saturday afternoon, defeating them by the overwhelming score of 87 to 6. The locals presented a patched line-up, neither Curtis nor Phillips of the regulars taking part. This was the last game of the season to be played on the home floor and the Calumet boys went on with the determination to roll up one of the highest scores of the year. Three points were all the local high schoolers needed to succeed in making 55 points in the first period and 52 in the second. At no time did the visiting team have a chance. Frimodig and Etna piled up 19 and 13 field baskets, respectively, for the local high schoolers. Points were scored as follows: First half—Calumet, Etna, 6 field, 1 foul; Frimodig, 5 field; McAuley, 2 field; Weir, 4 field.

Lake Linden, Labeault, 1 field; Rule, 1 foul.

Second half—Calumet, Etna, 7 field; Frimodig, 14 field; McAuley, 1 field; Weir, 4 field.

Lake Linden, Rule, 1 field, 1 foul. The line-ups:

Calumet. Lake Linden.

McAuley, center. Labeault, forward.

Frimodig, forward. Rule, forward.

Etna, forward. Weir, guard.

James, guard. Dunston, Peterson and James, guard.

Referee—T. Brown.

With this victory added to the local team's list and the defeat of the Lake Linden five by Hancock on the latter's floor Saturday, Calumet is entitled for the first time this season to first place in the percentage column. The locals now have a percentage of .857, while the Lake Linden and Hancock teams are tied for second place with .714 each. It is practically certain, now, that the Calumet boys will carry away the basketball honors. But should the Hancock team defeat the locals on the former's floor next Saturday and the Lake Linden win from the Houghton team, all three teams will be tied for first place. This, however, is not likely to happen as the Calumet high schoolers won from the Hancock five earlier in the season.

### MILLION FOR ADVERTISING.

Great Sum Will Be Spent by Pope, Thompson & Pape.

An appropriation of one million dollars to be spent this year advertising Pope's Diapiesis and Pape's Diapiesis has been decided upon by the directors of the Pope, Thompson & Pape Co., Cincinnati, O. Seventy per cent of this amount will be spent in newspapers of the United States, Canada and Mexico.

This immense appropriation, one of the largest ever known, proves the company's absolute faith in the worth of their preparations, also the fact that the newspapers are the best medium to use as a good article nationally known. News readers are already familiar with Pope's Diapiesis, which is said to be a splendid preparation to relieve upset stomachs and indigestion.

### HERE FRIDAY EVENING.

"The Great Divide," One of Best Attractions of Season, Coming.

A rare treat is in store for discriminating playgoers. The local lovers of good drama are again to see what the leading dramatic critics of America have so widely heralded as "the long awaited 'great American play'." "The Great Divide," which will be presented at the Calumet theater next Friday night. The attraction is under the personal direction of Henry Miller, the distinguished actor-manager, who has been presenting William Vaughn Moody's phenomenally successful drama of American life for over 600 nights at the Princess and Daly's theaters, New York, to such unprecedented business that a return engagement was out of the question heretofore. A superb company is now touring, and the entire production, with complete scenic equipment, will be given here precisely as when presented for two seasons in the Metropolis.

During the last two years the oil production has doubled in America. The production is \$16,000,000 greater than the output of gold and silver in the United States.

IRON COUNTRY WORKING  
FOR OSBORN SAYS OATES

Chairman W. R. Oates of the Upper Peninsula Iron club returned Saturday from Iron country where he had been working for the past week in the interests of the Osborn candidacy. Mr. Oates will go to Dickinson county this week to address large gatherings of the republican voters at Iron Mountain and Norway.

Mr. Oates reports that clubs were launched at Iron Mountain, Saturday night; Crystal Falls, Thursday night; Amasa, Wednesday night, and Stambaugh, Friday night; all with large memberships and very bright prospects. The club at Crystal Falls has no less than 600 members enrolled so far and the spirit of the voters is very much in favor of Osborn.

Mr. Oates is enthusiastic over the amount of Osborn sentiment in the iron country, stating that the voters everywhere are taking a most active interest in the chances of the upper peninsula favorite. All of the clubs are working hard, and it is believed that the full enrollment will be brought out in April for the September primaries. The outlook throughout the iron country is very encouraging and on the strength of his recent trip there, Mr. Oates expects to see nearly every republican voter in the northern section enrolled.

### HICK SAYS MARCH WILL BE COLD AND STORMY

The Rev. I. R. Hicks' predictions of the weather for March are not very reassuring for an early spring. According to Hicks' prophecy, we may expect about such weather as comes during the latter part of February to extend through both March and April.

A regular storm period is central on the 1st, beginning in February and ending March 3rd. At the close of this and other March periods, look for blizzards changes to high northerly gales, with cold waves sweeping from the Northwest, far into the South and East.

A reactionary period falls on the 6th, 7th and 8th, with indications that unsettled, if not stormy weather, may fill much of the time between the first and third storm periods of the month.

A regular storm period extends from the 10th to the 15th. Watch the 11th, 12th, 13th and 14th! A blizzard out of the Northwest will be natural on the western flank of these storms.

A reactionary storm period is central on the 17th, 18th and 19th. Violent storms may, or may not occur at this time, but on the 17th, 18th and 19th much colder weather will come out of the Northwest.

A regular storm period, as full of storm possibilities as any in the month, is central on the 24th, extending from the 22nd to the 27th, with blizzards of sleet and snow to the northward. The crisis of this period will strike progressively from west to east from the 24th to the 27th. A general and severe cold wave for March will most likely come out of the Northwest, and sweep far into the southeastern parts of the country between the 25th and 29th.

A reactionary storm period centers on the 30th and 31st. Prolonged storms of rain, sleet and snow should not be surprising during the last week of March.

### REPORTS WILL BE READ.

Last Meeting of Present Council Will be Held Tomorrow Night.

The Laurium village council will hold its regular monthly meeting tomorrow evening. Village Clerk Martin Prisk will present his annual statement for the fiscal year ending with February, and the annual report of Treasurer Frank Baggiore also will be read. The village is understood to be in first-class financial condition. Tomorrow night's meeting will mark the last appearance of the old board.

### OF COURSE IT'S LAMB

when we say it is. We don't sell you mutton at lamb prices. It's fine lamb too. Try a leg or forequarter for dinner tomorrow. If the other parts of the meal are as good as the meat you will have a feast indeed. Will we send it to you? Certainly! To any part of town.

**W. J. REYNOLDS**  
LAURIUM  
Phone 102.

One councilman will officiate for the last time tomorrow night. He is James Torrance, who has decided not to make the run again.

M. E. O'Brien is expected home from his eastern trip tomorrow, and expects to make an active campaign for re-election to the board. Messrs. O'Brien and Vivian, the two retiring aldermen, are both eligible for re-election. Others looking for places on the council are Samuel Jeffery, Vincent Valro and possibly two others. This will make, if the latter two allow their names to stand, six candidates in the field for the three positions.

### LOCAL CURLERS WIN.

A rink skipped by William Slimmon defeated a Portage Lake rink Saturday at the Palestra, the score being 16 to 9. Another game will be played in the Portage Lake or Palestra rink either Friday or Saturday of next week.

### LAURIUM BREVITIES.

The Italian league of Laurium will give a promenade in the First National bank hall of Laurium on March 5. At a recent special meeting of the Laurium village council the liquor bonds of J. B. Grossio were approved. This permits Mr. Grossio to remove from the Conrad block, Hecla street, to the Bosch building, corner of First and Hecla streets.

The village caucus will be held in the town hall Thursday evening this week. A large attendance of voters is expected, as interest in the coming election is keen.

Miss Ruth Pollock of Detroit is visiting with her mother, Mrs. Pollock, of Ironsides street, Laurium.

William Thomas and family have gone to Virginia, Minn., where they expect to reside in the future.

Rev. Andrew Anderson of Norway, Mich., who has been conducting revival services at the Swedish Mission church, Laurium, has returned home.

Ed. Haun of Dollar Bay is the guest of his sister, Mrs. Dan Harrington. The funeral of the three-year-old son of John Keckonen of the Allouez took place this afternoon, with interment in Lake View.

### THEIR "KITE DAY."

When the negotiations for peace between China and Japan were at their most critical stage after the war of 1895, and the Chinese commissioners were expected to sign the paper upon which everything depended, the awaiting chancelleries were thrown into disarray by the announcement that the agents of the flowery kingdom would not attach their signatures. The whole diplomatic world was agitated, but astonishment was still further increased when the reason was given that it was "Kite Day," an annual occasion when everyone from the emperor to the humblest coolie goes out to fly his kite. The ceremony is thousands of years old. It took precedence over everything else. Peace negotiations could wait, and they did.

A similar instance of custom overriding modern business was observed in Grasmere, Westmoreland, England.

where for untold generations there has, on a certain day, been enacted a dialect play by the English peasants. This year the play fell upon the same day as the election. The budget bearing, so they were told, the destinies and welfare of the nation and the house of lords itself hung upon the election. Liberal, Tory, laborite and socialist orators descended on the town to urge the electors to their duty, but custom won. "The Lewthwaites of Low-Gill" was given by the inhabitants, and hundreds neglected the polls to revel in the bucolic humor and the broad dialect of the characters. — Chicago Tribune.
